## Profile

Board

## Measurement

25 x 150mm  
(18 x 142mm)

25 x 100mm  
(18 x 92mm)

## Grade

Sawn Falling

## Grading Description

Canadian Western Larch (*Larix occidentalis*) is a strong, durable, and naturally rot resistant softwood, highly valued for outdoor applications like cladding and decking.

The heartwood is pale reddish-brown to a distinct brick red, while the narrow sapwood is whitish. It has a straight, fine grain and a slightly oily appearance.

## Recommended Fasteners

Stainless Steel Annular Ring Shank Nails
